

ClearPlayer

Installation Guide

Step-by-step setup for every device

Supported Devices

Formular Receiver

QViart STB

Amazon FireStick

Before You Begin

- The ClearPlayer APK file downloaded from your provider
- A USB drive (Formular / QViart) OR an internet connection (FireStick)

Contents

1	Formular Receiver	page 2
2	QViart STB (OGA and AG Android models only)	page 3
3	Amazon FireStick (Not the Select version)	page 4

1. Formular Receiver

Follow the three stages below in order. Each must be completed before moving to the next.

Stage 1 — Copy the APK to a USB Drive

- 1 Download the APK**
 - On your computer, download the ClearPlayer APK file from your provider.
- 2 Copy to USB**
 - Copy the APK file to the root directory of your USB drive (not inside any folder — place it directly on the drive).
- 3 Safely eject**
 - Safely eject the USB drive from your computer before unplugging it.

Stage 2 — Allow Unknown Sources on your Formular

- 1 Open Settings**
 - Turn on your Formular receiver and go to Settings > Device Preferences.
- 2 Open Security & Restrictions**
 - Scroll down and select Security & Restrictions.
- 3 Turn off Verify Apps**
 - Ensure the Verify Apps toggle is switched OFF.
- 4 Enable Unknown Sources**
 - Open the Unknown Sources option and switch every toggle ON to allow apps to be installed from outside the Play Store.

Stage 3 — Install the APK

- 1 Plug in the USB drive**
 - Insert the USB drive into the USB port on your Formular receiver.
- 2 Open Media Browser**
 - Open the Media Browser app on your Formular.
- 3 Navigate to your file**
 - Select All Files > your USB device (usually listed as "USB Storage").
 - If you placed the APK in the root directory it should appear on the first screen. Scroll down if needed.
- 4 Install ClearPlayer**
 - Select the APK file and tap Allow.
 - When asked — Do you want to install this application (ClearPlayer)? — select Install.
 - Tap Done when complete. You will return to the USB folder.
- 5 Launch the app**
 - Press Home. The ClearPlayer icon will appear on your home screen.
 - Open it and sign in with your subscription username and password.

Tip: If the APK does not appear in the Media Browser, check you placed the file directly on the root of the USB drive and not inside a folder.

2. QViart STB (OGA and AG Android Models Only)

QViart installation follows the same three-stage process as the Formular receiver.

Stage 1 — Copy the APK to a USB Drive

- 1 Download the APK**
 - On your computer, download the ClearPlayer APK file from your provider.
- 2 Copy to USB**
 - Copy the APK file to the root directory of your USB drive (not inside any folder).
- 3 Safely eject**
 - Safely eject the USB drive from your computer before removing it.

Stage 2 — Allow Unknown Sources on your QViart

- 1 Open Settings**
 - Turn on your QViart receiver and go to Settings.
- 2 Go to Security**
 - Select Security & Restrictions, or go to Personal > Security depending on your model.
- 3 Enable Unknown Sources**
 - Turn on Unknown Sources to allow apps to be installed from outside the Google Play Store.

Stage 3 — Install the APK

- 1 Plug in the USB drive**
 - Insert the USB drive into the USB port on your QViart receiver.
- 2 Open File Manager**
 - Open the File Manager app on your QViart.
- 3 Navigate to your file**
 - Browse to your USB drive (usually listed as "USB Storage" or similar).
 - Find the ClearPlayer APK file.
- 4 Install ClearPlayer**
 - Select the APK file and choose Install.
 - Confirm the installation and wait for it to complete.
- 5 Launch the app**
 - ClearPlayer will now appear on your home screen.
 - Open it and sign in with your subscription details.

3. Amazon FireStick (Not the Select Version)

FireStick installation uses the Downloader app — no USB drive needed. Follow all three stages in order.

Stage 1 — Enable Developer Options

1

Go to About

- On your FireStick go to Settings > My Fire TV > About.

2

Unlock developer options

- Find your device name and click on it 7 times in a row.
- A message will confirm that developer options are now enabled.

Stage 2 — Install the Downloader App

1

Search for Downloader

- From the FireStick home screen go to the Find / Search menu.

2

Find the app

- Search for Downloader and look for the orange app by AFTV News.

3

Download it

- Click Download to install the Downloader app on your FireStick.

Stage 3 — Download and Install ClearPlayer

1

Open Downloader

- Go to Your Apps on your FireStick and open the Downloader app.

2

Enter the APK URL

- Select the URL box and enter the ClearPlayer APK download link from your provider.
- Tip: If your provider gave you a QR code, scan it with your phone camera to get the URL, then type it in.

3

Download and install

- The APK will download and the installer will launch automatically.
- Follow the on-screen prompts to complete installation.

4

Move to your home screen

- ClearPlayer will appear in your Apps folder.
- To move it to the front: highlight the app, press the Menu button on your remote, and select Move to Front.

5

Sign in

- Open ClearPlayer and enter your subscription username and password to get started.

Tip: If you see 'Permission denied' during installation, go to Settings > Applications on your FireStick, find ClearPlayer and ensure 'Install unknown apps' is enabled.

Thank you for choosing ClearPlayer. For support please contact your provider.
